Holistic Early Warning System and Community-based Climate Change Observatory

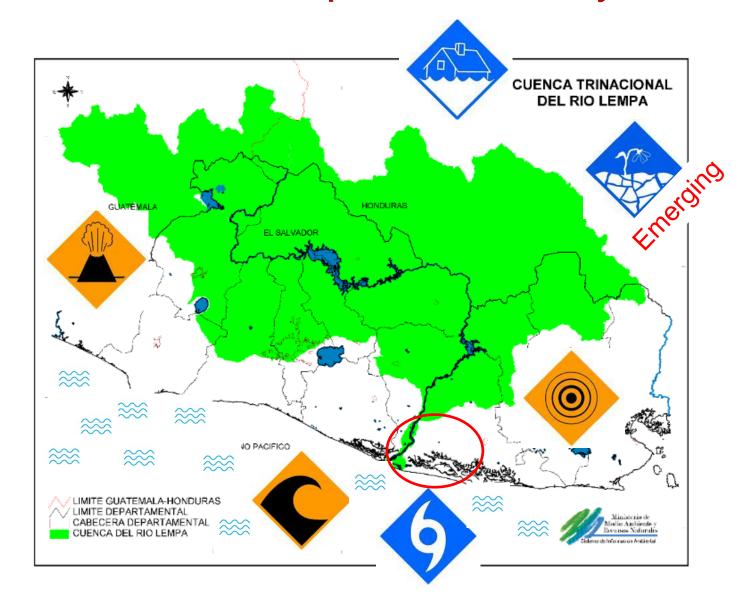

Case study from El Salvador

27-29 June 2018 Tech4Dev - EPFL – Lausanne Grégoire Labhardt

Multi-disaster prone estuary

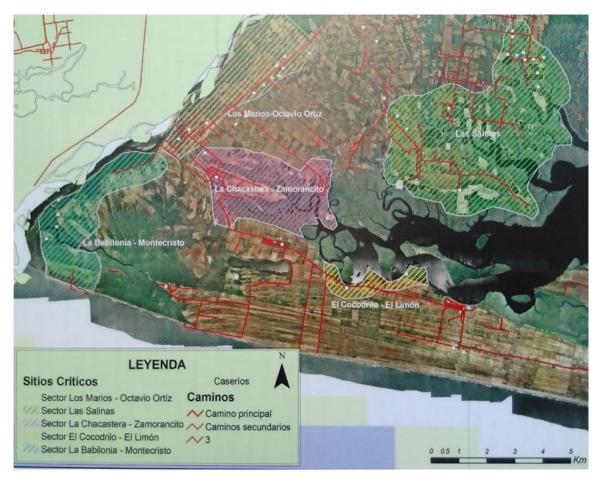

RICH CLABAUGH/STAFF

88.7% of territory and 95.4% of population at risk of natural disaster

Understanding

Linking Relief, Rehabilitation and Development (LRRD)

Holistic Early Warning System

Multi-stakeholders

Croix-Rouge suisse Schweizerisches Rotes Kreuz Croce Rossa Svizzera

Holistic Early Warning System

Multi-sectorial: Family plan, Community

Emergency Committee, Shelter, Escape

routes, Evacuation exercise, Radio...

& Health

Community based Climate Change Observatory

with Rio-Indicators

MES:	_ ZONA: Ceiba Doblada
Nombre del observador: _	

Observaciones	Resp	uesta	Lugar	Fecha		
¿Cómo canta la chonta	Normal	Trino				
este mes?						
¿Ha visto la Tijereta este	Si	No				
mes?						
¿En qué tipo de rama	Verde	Seca				
canta el Guas?						
¿Qué tortuga inicio su			-			
llegada este mes?						

Árbol	Observ	/aciones	Lugar	Fecha		
	Flores	Fruto				
Madre sal						
Botoncillo						
Mangle rojo						
Mango Indio						
Marañón						
Lugar
